My dear Sir -

Last week a friend of
yours from New York, stopped in my
store and saw the coins, we had
in the window, and when he found
out that I wanted to sell them, he
said he felt sure you would be
interested in these coins. and told me
to write you, they are wonderful coins.
They are my personal property, have been
in my family, for years. in Syria,
and when there last summer, I brought
them along. You will find the name
and copy on tin foil, which I am
sending in a little box. hope you
can see them plain. leave me
know at once if you could use them.
The coins are old silver, and good
condition and then I have an old
Flint pistol over 200 yrs. in Haddad
family. I can prove it, made in London
Manned Co. silver trimmed. if any one
wants to buy it please leave me know.
I thank you very much, and hope
you can use them, Thanking you
Yours, H. Haddad

Dear Sir:

Your letter came several days ago and the box containing the foil impressions today. Unfortunately they were so badly bruised and crinkled that we could tell nothing about your coins. If you care to you might send the pieces themselves on and we will look at them and tell you about them and also if we care to buy any of them.

Very truly yours,

HW:JG

Curator

My dear Mr. Woods.

Replying to yours of the 2nd inst. Will be in your city, in a short time, when I will bring them to you, for inspection and appraisal.

The coins are very valuable and wonderful conditions. Every one that has seen them here in Dayton, exclaims how wonderful, and valuable they are. sorry you could not make out the gold impressions. They were in perfect conditions, when they left here. I am not afraid to send them to you, but afraid they will get lost on the way. and they mean a great deal to me. They draw people 100 or more miles to see them in my store window, which helps business.

Yours Very Truly,
Geo. W. Haddad.
